PROPERTY OWNER REQUESTED DANGER TREE CUTTING

1. Requests to cut tree(s) that are endangering Midstate Electric Cooperative's primary distribution lines or equipment must come from the Property Owner whose tree(s) will be cut.
2. The Property Owner shall sign a Release Form that gives Midstate Electric permission to fall the requested tree(s).
3. The Midstate Electric ribbon given to the Property Owner will be put on the tree(s) by the Property Owner before the crews go out to do the work.
4. The Cooperative will cut the trees when the Line Foreman can schedule a crew in that area with proper equipment. When the weather becomes cold enough to freeze the tree(s), Midstate Electric crews will cease cutting until the tree(s) become free of frost.
5. Midstate Electric will **NOT DO TREE TOPPING OR TAKE TREE(S) DOWN ONE PIECE AT A TIME**. Should this be necessary, the Property Owner will need to hire a tree service. Midstate Electric will work with the Tree Service if service lines need to be taken down or de-energized.
6. Midstate Electric crews will only fall the tree(s) and the Property Owner will be responsible for the clean-up.
7. If a tree is fallen on a driveway to the Property Owner's home, the crews will cut out the portion of the tree in the driveway. If the driveway is in a loop, the crews will cut out only one way in.
8. Midstate Electric will cut only these trees that are a threat to the Cooperative's primary distribution lines on an Owner's property.
9. Trees along a service drop that do not pose a threat to the primary distribution lines will be the Property Owner's responsibility to have taken down.
10. If a request as been made for a tree to be cut by Midstate Electric crews, and the tree for some reason has been removed before we come to do the job, notify the Cooperative at 536-7237 or 1-888-582-4938.
